## **EXAMINER'S COMMENT AND STATEMENT OF REASONS FOR ALLOWANCE**

### ***Comment on Submissions***

1. This action is responsive to submissions of 8 September 2008.

### ***Allowable Subject Matter***

2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, although spectrometric apparatus utilizing a wide variety of optical and electronic components in a variety of arrangements are known in the art (see for example Rabolt *et al.* – US 6,784,428 B2; Hafeman *et al.* – US 6,188,476; Wells *et al.* – US 5,729,018; Zachmann *et al.* US – 5,510,619; Yamaguchi *et al.* US 5,278,413; and Messerschmidt – US 4,712,912) the prior art does not disclose or fairly suggest a chemical imaging spectroscopic apparatus with the specifically recited elements and arrangement thereof. The examiner notes that while all of the recited elements are generally known in the art, there is no motivation, absent hindsight reasoning, to combine the elements in the order suggested to arrive at the presently claimed invention.

The remaining claims are allowed on the basis of their dependency.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
